| [ICML 2026] Decision notification for your submission 15930:\$^2\$MAM: Semi-supervised Meta Additive Model for Robust Estimation and Variable Selection

发件人: "ICML 2026" <icml2026-notifications@openreview.net>
日期: 2026年05月01日 星期五 03:25:17
收件人: zhangxuelin@webmail.hzau.edu.cn

Dear Xuelin Zhang,

We are happy to notify you that your submission \$^2\$MAM: Semi-supervised Meta Additive Model for Robust Estimation and Variable Selection (<https://openreview.net/forum?id=vLls3DlXCA>) is accepted as a regular paper at ICML 2026. To complete your meta-review, please log in to your author console at <https://openreview.net/group?id=ICML.cc/2026/Conference/Authors>.

We received 23,918 submissions (the number that entered reviewing after the initial round of desk rejections and withdrawals), that's **double the submissions** received last year. From these submissions, we have accepted 6,352, giving an acceptance rate of 26.6%.

This year, the authors of accepted regular papers are able to decide whether they wish to present their work in person at the conference, or they just wish to include it in the proceedings. It is not possible to present a poster remotely if the paper is presented in person, the presenting author must have an in-person conference registration. If the paper is proceedings-only, at least one of the authors must have either an in-person or a virtual conference registration.

Key action item for you: Please ensure that one author on your submission fills out the **In-person Presentation Questionnaire** by **May 11, 11:59pm AOE**. It is available in the author console under [Author Tasks](#).

ICML will take place in Seoul, South Korea on July 6-11, 2026 and will be an **in-person conference**. In particular:

1. All in-person papers will be presented as a poster at one of the poster sessions during the main conference. At least one author of each such paper is required to attend the conference in-person. If you choose in-person attendance, you will receive further instructions on the **poster format** as the conference gets closer. You will receive a special "spotlight distinguishing marker" (perhaps a ribbon) at the conference to affix to your poster.
2. Every paper (including proceedings-only papers) will be given an opportunity to record and make available a short video presentation of the paper. This is a nice feature but not required.

The camera-ready deadline is May 28, 11:59pm AOE. Instructions for preparing and submitting the camera-ready version of the paper will be made available soon. We will notify you by email when the instructions are available.

Congratulations, and thank you for submitting your work to ICML. We are looking forward to seeing you at the conference.
